VINTAGE 2012

The year ranged from very good to optimal, with moments of excellence, strength and depth; however, the vintage did not have the average aromatic wealth of 2011. A distinctive feature was the vintage's climatic trend, which successfully managed to highlight the different characteristics of the production areas. A very warm vintage with great notes of aromatic concentration and expression, a high degree of softness with non-aggressive tannins, hints of ripe black fruit with light floral and jam notes, resulting in a powerful but at the same time complex and elegant wine.
